THE BREAD FACTORY
LONDON

Specialist craft bakery serving top chefs for over 30 years

In the 1990s, our founder Gail Mejia brought together some of the best bakers in London to bake proper bread for the city's top chefs and restaurants. That was the start of The Bread Factory — a name chosen with irony, because everything we made was (and still is) handmade with care, using traditional methods and the best ingredients we could find.

Since then we've grown from a small team of bakers into one of the UK's leading artisan bakeries, serving chefs across the land who care about the quality of their bread as much as we do.

We work with trusted millers and farmers, ask tougher questions about flour and flavour, and constantly evolve how we bake to meet the highest standards. We don't just make just bread. We partner with people who expect better and who rely on us to deliver it, every day.

We've always believed that good bread should do more than fill a plate. It should tell a story — of quality, craft, and care.

The Way We Bake

The way bread is made today is a problem. Modern farming practices have left the soil tired and depleted, while a focus on mass production over quality means much of the bread we eat isn't what it should be. But we believe in something better, bread that nourishes the people who eat it, and the land it comes from. Bread that's full of flavour, and part of a food system built to last.

That belief is at the heart of The Way We Bake. Our ethos and strategy that shapes every decision we make. It means using traditional methods not out of nostalgia, but because they work and combining them with innovation when and where it matters. It means working with partners who prioritise soil health, biodiversity, and better farming practices. In the last two years, we've started incorporating regeneratively farmed and diverse grains into our loaves; a step towards a more resilient food system.

Baking this way is not just about what we make; it's about how we think. It's a commitment to evolve, to improve, and to question. To build a system that supports the land, the growers, and the people we feed.

Great bread starts with great grains

We care about flavour. We care about quality. And we care about doing right by the people and the planet. Our sourdoughs use a variety of grains from emmer and spelt to rye, barley and a variety of heritage and population wheats, which help to support crop diversity whilst each adding layers of flavour and nutrition to our bread.

In the last year, we've partnered with 10 nature-led UK farms for a year-long initiative to grow wheat in a way that supports soil health, biodiversity, and flavour.

By backing regenerative practices, like diverse crop rotations, minimal tilling, and using cattle to naturally enrich the soil, we help farmers grow more resilient, nutrient-rich wheat.

In return, we commit to buying what they grow. Because good farming leads to better grain, better bread, and a better food system.

Sourdoughs

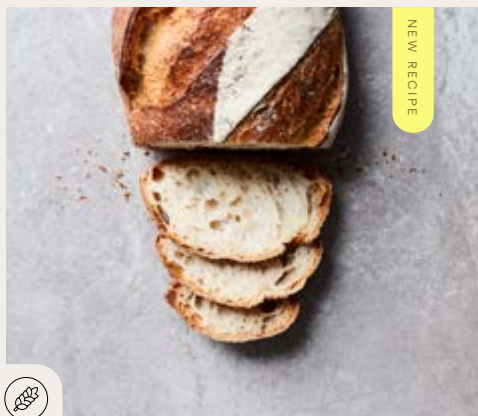

We aim for full fermentation by feeding our starter regularly and keeping it at just the right temperature. It's a slow process, but worth it. The result? Bread that's easier to digest, with better nutrients, lower gluten content, and a longer shelf life. No tricks. Just good bread, made with patience, purpose and proper fermentation.

Our Classic Sourdoughs

Timeless and full of character, this is the heart of our bakery — a range we've been perfecting for decades. These are the loaves our customers return to every day: reliable, consistent, and crafted with care.

Made with simple ingredients, natural fermentation, and the skill of experienced hands, each loaf is baked to deliver flavour and texture.

Borough White

The classic white sourdough, crafted with heritage wheat, wholemeal spelt, rye, and emmer for extra depth of flavour and nutrition. A subtle touch of spelt brings sweet nuttiness and a gentle creaminess to the tacky, open crumb, while the dark, crackly, floured crust makes this a versatile loaf for any table.

Borough Seeded

Combining our tangy and flavoursome wholemeal starter with white flour, this dough is filled with and then rolled in four kinds of seeds: sesame, pumpkin, and brown & yellow linseeds.

Borough Brown

The natural nuttiness of wholemeal flour shines through, complemented by the gentle acidity of a slow-fermented dough. A tacky, open crumb sits beneath a thick, chewy crust.

Potato & Rosemary

A fragrant and savoury sourdough packed with flavour – soft chunks of skin-on potato, chopped rosemary, and earthy nigella seeds folded through the dough. With a glossy crust and a chewy, aromatic crumb, it's made with regenerative and heritage wheat, alongside wholemeal emmer, spelt, barley, and rye for added depth and character.

Specialist Sourdoughs

We've gone back to the roots of breadmaking, working closely with farmers and millers to source grains that are often overlooked or nearly forgotten. Prioritising diversity in the field and in our flour means more nutrition, more flavour, and more character in every loaf.

Country White

Made with a blend of grains including wholemeal wheat, rye, spelt, emmer, and barley — each chosen for their depth of flavour and nutritional value. Spelt and emmer, both ancient grains, bring added richness.

Mixed Olive

A thyme-infused sourdough stick, baked with plump green and Niçoise olives for a sharp, rich Mediterranean bite. We make the dough with a variety of wholemeal grains, including regenerative wheat, giving the loaf depth of flavour, a softer crumb, and a more nourishing profile.

Sour Cherry & Currant

A batard loaf baked with a mix of white, dark rye, spelt and wholemeal flours, and stuffed with sour cherries and currants. The shape and fruity sweetness makes this the perfect bread for cheeseboards.

Potato, Polenta & Onion

Baked with potatoes we roast — skin on — in our bread ovens, then knead into the dough to create a rich, fragrant sourdough. It's coated in polenta for a golden, textured crust, and made with a wholesome blend of wholemeal flours and diverse grains that add depth and nutrition.

Seven Seeds & Grains

Baked with a unique blend of seven gently toasted seeds and grains, mixed into a dough that's made with a wholesome blend of wholemeal flours. Each loaf brimming with a nutty, deep flavour and lots of natural fibre.

100% Rye Pumpernickel

A Pumpernickel style sourdough made with dark rye, molasses, and baked potato. Nutty sunflower seeds add crunch, while its tangy flavour offers a rich and hearty bite.

Malted

Made with a blend of wheat, spelt and rye flours and with a touch of barley and malt. This malted sourdough loaf has a chewy, tacky and soft texture. Subtly balancing malty sweet notes with tangy aromas is what makes this loaf unique.

Wholemeal Bloomer

Crafted with 100% wholemeal flour and a blend of five grains — wheat, rye, barley, spelt and emmer — this slow-fermented sourdough is rich, earthy, and full of flavour. Stone-baked and hand-finished, it's everything wholemeal should be — nourishing, honest, and deeply satisfying.

Wildfarmed Range

Crafted with regeneratively farmed flour that nurtures the soil and celebrates our commitment to sustainability and quality. The range features white and seeded breads in 800g (sliced and unsliced) and 250g table loaves, along with plain and seeded dinner rolls and a burger bun.

Classic Breads

From tin loaves and bloomers to baguettes, focaccias and rolls; our classic range is made care and commitment as our sourdoughs. No corners cut; just well-made doughs and real ingredients. Breads for toasting, for sandwiches or for making something simple feel good.

Our Partners

Shipton Mill

We've been working with Shipton Mill for nearly thirty years — our longest-standing partnership. They share our belief that the best bread starts with exceptional grain. Their flours are milled with precision and care, capturing the flavour and character of the grain — and the place it comes from.

Shipton works directly with farmers who value soil health and biodiversity, selecting grains that speak of their climate and origin. That commitment to provenance, sustainability, and quality has shaped the way we bake — and it continues to inspire us every day.

Wildfarmed

Since 2018, Wildfarmed has been championing regenerative farming to restore biodiversity and soil health, making food the right way. Through their innovative regenerative standards and rigorous testing, Wildfarmed guarantee that their crops are also minimising river pollution and reducing carbon. By partnering with Wildfarmed, we're not only supporting farmers who prioritise sustainability but also ensuring the quality and nutritional value of our products. Together, we're working towards a more resilient food system, where great farming practices lead to great bread.
